

With 700 collective years' experience, trust Transportation Impact to help you...
Ship smarter. Spend less.

We're so confident in our **free, no-obligation** analysis we're willing to guarantee your generated savings projection to 1/10 of 1%.

 **PROVEN SAVINGS**

It isn't uncommon for companies to promise you everything but the kitchen sink. You can expect a 15%-25% cost reduction from our talented team (last year we averaged 19.7%). We'll even give you your savings estimate in writing and guarantee it. You don't save? We don't get paid!

 **KEEP YOUR CARRIER**

You want to reduce shipping costs, not upset the applecart. No worries. We're former FedEx and UPS pricing/analytics wizards. We'll customize a savings blueprint from your current contract so you can keep on rolling with your preferred carrier.

 **WEEKLY REPORT CARD**

After a TI negotiation, your carrier invoices will be a lot lower. It's important to see where every penny saved comes from. You'll receive a weekly report card with proven savings to hold us accountable. It's real math. It's tangible. It's measurable.

 **A WINNING RECORD**

Want maximum parcel cost reduction? Join an undefeated team. No matter what carriers promise, we find savings no one else can. Transportation Impact has a 100% success rate. Why else would we guarantee every savings projection to the tenth of a percent?

We've saved \$620 million in rate reductions without compromising the carrier's service levels to clients.

A FEW HAPPY CLIENTS:
