

LogOX

ForestrySeries™

Info Videos

LogOX Hauler (Only)

Part #: 1001 (Patented)

Material: Steel

Dimensions: 6.6 lbs 21" long

Uses: Lift and carry log rounds without bending over, scientifically proven to reduce back strain by 93%. Roll small diameter logs. Securely drag branches, brush, and small logs regardless of weather conditions.

LogOX CarryOX Carrying/Storage Bag (Only)

Part #: 1111

Material: 18 oz. Cotton Canvas, Nylon Straps (can be carried or worn like a backpack) YKK zippers.

Dimensions: 1,260 cubic inches of internal space, 30" L x 6" W x 7.5" H

Uses: Plenty of room to store a disassembled LogOX and additional gear. Features a double overlapped canvas bottom for extra resiliency and two large internal velcro-secured pockets for consolidating small items.

LogOX 3-in-1 Forestry MultiTool

Part #: 1002 (Patented)

Material: Steel

Dimensions: 13.5 lbs 40" long (fully assembled) 30" (disassembled)

Uses: Includes LogOX Hauler. Add handle extension to create a 40" cant hook for rolling logs. Bigfoot Timberjack Attachment creates an elevated cutting platform to prevent ground strikes. Assembles and disassembles in seconds using the three included swing lock attachment pins.

LogOX 3-in-1 Forestry MultiTool and CarryOX Carrying/Storage Bag Combo

Part #: 1017

Includes: Both the LogOX 3-in-1 Forestry MultiTool and CarryOX Bag.
